Matt Loesel
ESF-10 Hurricane Harvey Response
Planning Section Chief
202-578-2125

Hurricane Harvey ESF – 10 Unified Incident Action Plan (IAP-9)

Operational Period:

Starting: 09/08/2017 @ 0700

Ending: 09/09/2017 @ 0700

1. Incident Name:		2. Operational Period: (Date / Time)		INCIDENT OBJECTIVES ICS 202 - EPA	
Hurricane Harvey – ESF 10 Texas		From: 09/08/2017 @ 0700 To: 09/09/2017 @ 0700			
3. Incident Objective(s):					
<ul style="list-style-type: none"> • Provide for the safety, welfare and security of response personnel. • Maximize the protection of public, health, and safety. • Identify affected drinking water and wastewater systems in each area, evaluate the systems to determine their operational status and facilitate system contact with Federal, State, and Local agencies (provide technical assistance). • Conduct wide area assessment to identify orphaned containers equal to or greater than 5 gallons, potential or actual discharges from vessels and/or facilities, and document the most effective means for recovery or mitigation in accordance with Natural Disaster Operations Workgroup and the approved Unified Command Vessel/Pollution Removal protocols. • Prioritize, monitor, mitigate and/or recover identified pollution targets. • Assess DHS critical infrastructure and RMP/FRP facilities for damage and immediate/ongoing releases. • Identify secure areas to process and temporarily store for subsequent recycling, disposal, or return to original owner displaced orphan containers, above ground storage tanks, hazardous waste, and vessels. • Identify locations and establish ESF 10 ICP, Branches, and Staging Areas commensurate to the size and scope of the incident. • Establish and maintain a common operating picture (COP). • Identify and maximize protection of environmentally sensitive areas and threatened species. • Manage a coordinated interagency response effort that reflects the composition of the Unified Command. • Establish an IMT that can meet the initial and long-term challenges required for incident mitigation. • Inform the public, stakeholders, and the media of response activities. • Ensure appropriate financial accounting practices are adhered to. • Establish a vessel recovery strategy. • Establish a strong interagency partnership with public and private organizations to determine ownership and disposition of targets. 					
4. Operational Period Command Emphasis. (Priorities, Key Discussions/Directions):					
<ul style="list-style-type: none"> • "Get them back to normal" • All field activities will be conducted using the NDOW Standard Operating Procedures, the approved Unified Command Vessel/Pollution Removal protocol, NDOW tools, and Response Manager. • Agencies will work in coordination under Unified Command. • Establish a Hurricane Evacuation Plan for responders and assets which minimizes the disruption to response efforts. • Develop relocation/transition plan to new ICP location. 					
5. General Situation Awareness (Safety bullets, Weather, etc...):					
<input checked="" type="checkbox"/> Approved Site Safety Plan Located at: Safety Officers' desk

Jimmy Martinez, TGLO		09/07/17	1825		
CDR Tedd Hutley, US Coast Guard		09/07/17	1906		
INCIDENT OBJECTIVES		ICS 202 - EPA (Rev 02/10)			

1. Incident Name	2. Operational Period (Date/Time)	Command Direction ICS 202A-CG
Hurricane Harvey – ESF 10 Texas	From: 09-08-17 @ 0700 To: 09-09-17 @ 0700	

3. Key Decisions and Procedures: (Ref IMH pg 4-1 to 4-2)

NAME OF INCIDENT: Hurricane Harvey ESF-10 Texas

OPERATIONAL PERIOD: 24hour operational period

FUNCTIONS: Safety, Oil Spill & Hazardous Substance Release and Threats, Environmental Protection, drinking water and waste water facility assessment.

ASSISTING & COOPERATING AGENCIES: EPA, TCEQ, TGLO, USCG, NOAA, CST, USFW, TPWD

ORGANIZATION: (Consider Shift Work)

- **AGENCY EXECUTIVE(S): FEMA JFO**
- **INCIDENT/UNIFIED COMMAND:** EPA is the lead agency for ESF-10 and USCG is Deputy to support state of TX in accordance with NRF. The ESF-10 Unified Command consists of TGLO, TCEQ, EPA, and USCG.
- **COMMAND STAFF:**
 - PIO – EPA, assistants as necessary
 - LOFR – EPA, USCG assistant
 - SOFR – EPA, ASOFR – USCG
 - NOAA-SSC
 - Legal Officer – TBD
- **GENERAL STAFF**
 - OSC – EPA with each participating UC agency as Deputy
 - PSC – EPA, with each participating UC agency as Deputy
 - LSC – EPA, with each participating UC agency as Deputy
 - FSC – EPA, Deputy USCG (for MA mgnt), DPN

FACILITIES:

- ICP/ALPHA BRANCH LOCATION: 2001 Suntide Rd, Corpus Christi, Texas; Intend to move ESF10 ICP to centralized location (TBD).
- BRAVO BRANCH LOCATION: 13411 Hillard St. Houston, Texas
- CHARLIE BRANCH LOCATION: 3100 Hwy 365, Port Arthur, TX
- JIC LOCATION: Full FEMA JIC TBD
- Airport: Corpus Naval Air Station

Delegation of Authority:
All Section Chiefs are empowered to staff according to the needs of the response.

IMT Procedures/Function: The National Response Framework, ESF10 annex, the Area Contingency Plan, and Geographic Response Plans, and TGLO tool kit will be used, as appropriate, in planning operations.
All field activities will be conducted using the NDOW Standard Operating Procedures, the approved Unified Command Vessel/Pollution Removal protocol, NDOW tools, and Response Manager
All responders will use USCG/EPA IMH and job aids as the IMT SOP. All IMT members shall review their section responsibilities.

UC Functionality:
Core hours of the UC will be from 0700 to 1900.
UC shall approve all media releases.
UC will approve visitation of VIPs to the response sites.
The UC members will work with their deputies to ensure someone is accessible 24 hours/day.

4. Priorities: (Reference IMH pg 4-2 to 4-3)

1. Life - Safety of Public and Responders
2. Drinking Water and Waste Water systems
3. Assessment, prioritization, mitigation, and monitoring of oil and hazardous substance targets throughout impacted area utilizing NDOW protocols
4. Environmental Protection
5. Information management and situational awareness
6. Unified and efficient government support to the state of Texas

5. Limitations and Constraints: (Ref IMH pg 4-3 to 4-4)**MANAGERIAL:**

Working under large FEMA led disaster response organization.
 Impacted area crosses 3 COTP zones; Delegation of FOSC authority completed.
 Oil response funded under separate MA

POLITICAL ENVIRONMENT:

Media Coverage: There is likely to be high media interest.
 Public Confidence/Perception
 Potential for Adverse Economic/Environmental/Health and safety Impacts:
 There has been a Large Scale Evacuation with numerous displaced citizens

FINANCIAL:

Funding Sources: EPA has been issued an \$8.5Million ESF10 mission assignment. EPA will manage the cost accounting for these funds.
 USCG will utilize MA for oil spills. USCG will manage the cost accounting for these MAs. USCG MA is approved.

LOGISTICAL:

Multiple resource ordering processes may confuse the process.
 Lodging availability is scarce.
 Personnel must travel long distances to conduct response operations.
 Each agency will use their own logistics processes.

OPERATIONAL/SAFETY/ENVIRONMENTAL:

Night operations on an as needed call-out basis.

RESOURCES: Limited Staffing Resources for adequate IMT.

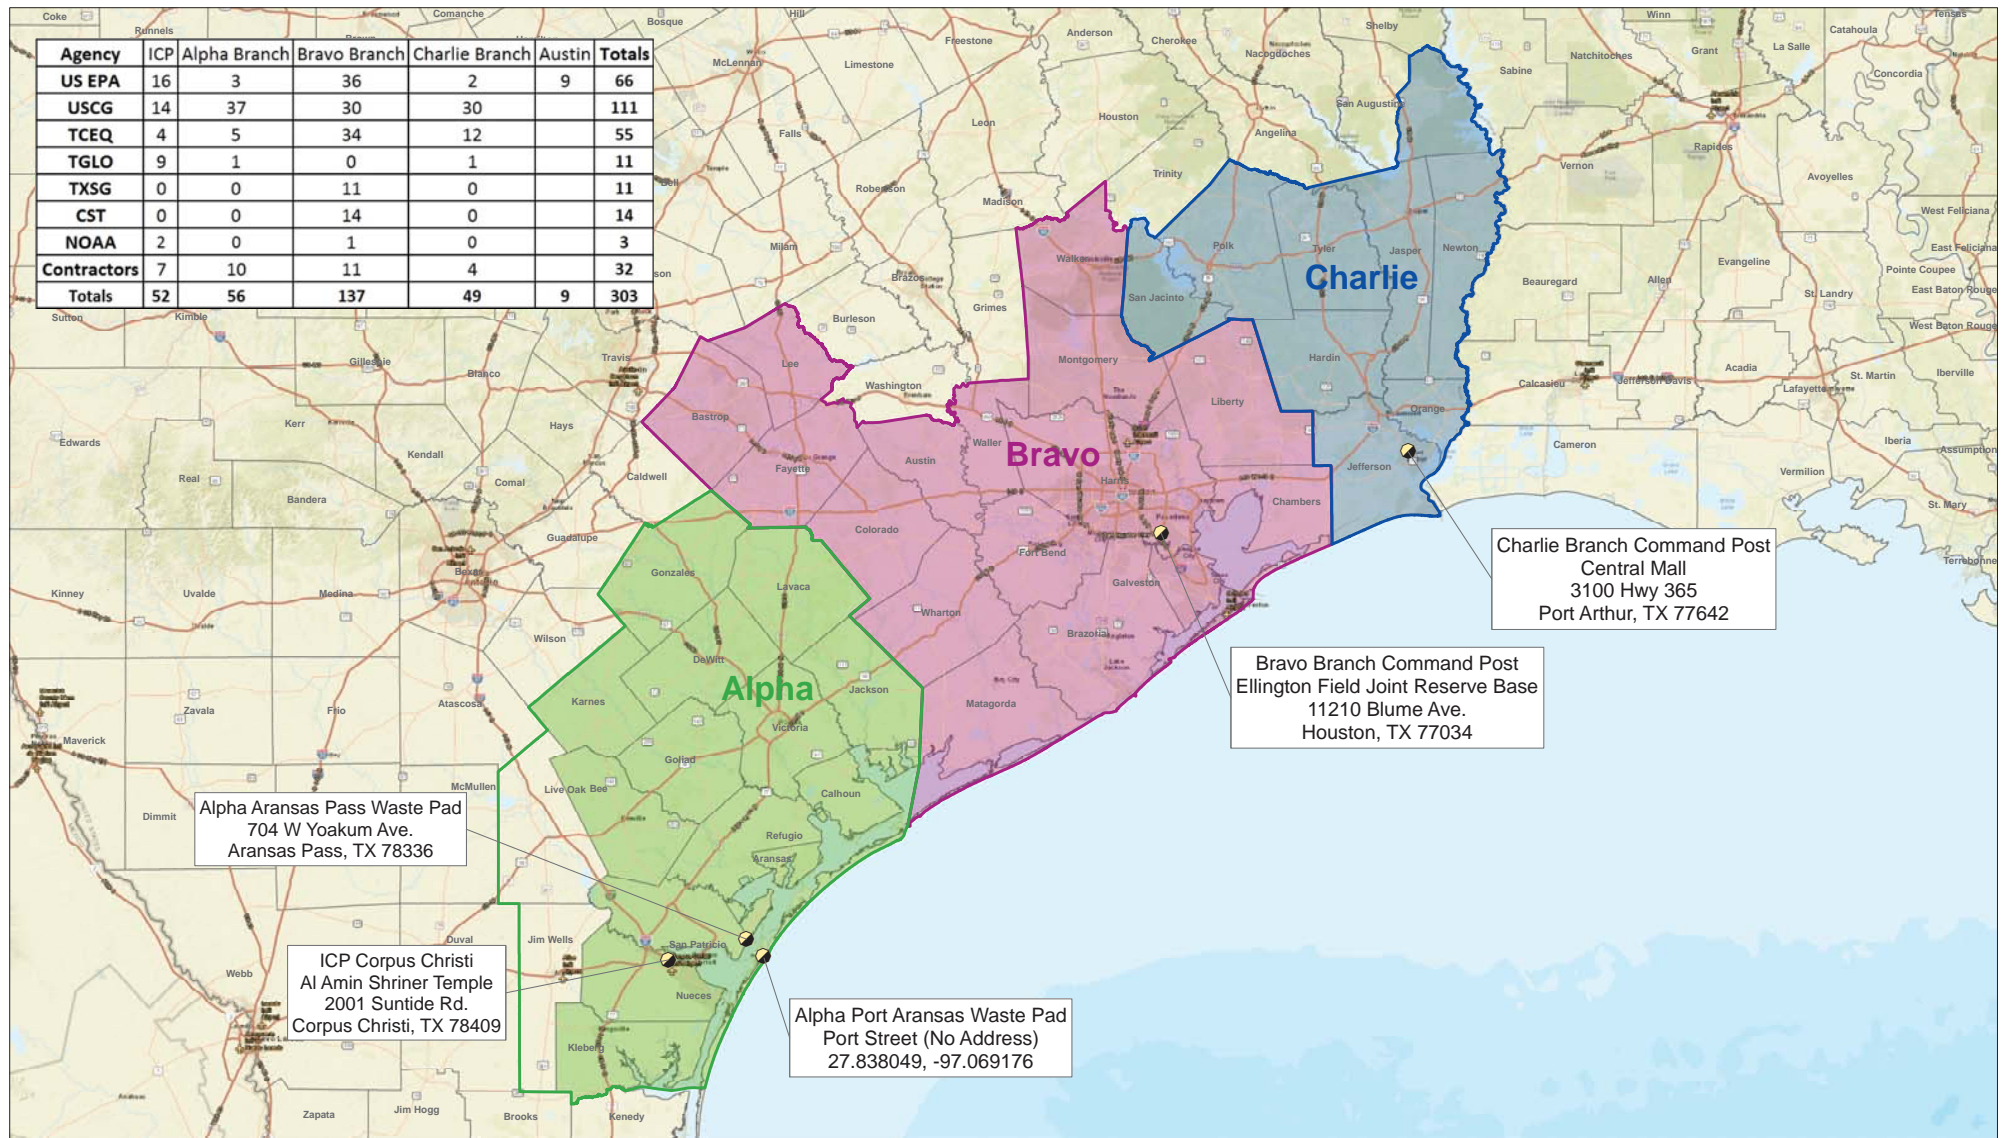

GEOGRAPHY/TERRAIN: Impact of the event is widespread over a large geographic area. Impacts cross 3 Captain of the Port Zones and entire EPA Region.

PHYSICAL ENVIRONMENT: Heat stress must be considered during each and every operation.
 Numerous health safety hazards.

Subject: Harvey ESF-10 US Coast Guard Documentation Guidance

Background: On 28AUG2017 the Federal Emergency Management Agency (FEMA) issued the ESF-10 Mission Assignment to the Environmental Protection Agency (EPA). The US Coast Guard was brought in for technical expertise and identified as a member of the Unified Command. Additionally, the Coast Guard was given a Mission Assignment under the same Emergency Support Function to remove pollution threats from the waterway. Though the EPA is responsible for the big picture of this Emergency Support Function, the Coast Guard has a responsibility under the Mission Assignment to provide documentation to the EPA via Response Manager and provide cost documentation to the National Pollution Funds Center for vessel removal under Mission Assignment 1509-237911.

Field Documentation:

As long as the information being generated in the field is being entered into Response Manager via NDOW, the need for paper ICS-214 forms is still necessary for all removal activity. The ICS-214 forms will be submitted with the Cost Doc package generated out of each Branch in accordance with Hurricane Harvey ESF-10 Environmental Threat Removal Guide. ICS forms should be scanned and emailed to Harveyesf10@uscg.mil.

Required documentation for ESF-10 records:

Response Manager is being utilized to store data submitted by the field for the ESF-10 mission. The data, as submitted, satisfies the Coast Guard document retention requirement from the field. The following information will be collected and maintained at the ESF-10 Incident Command Post.

- Incident Action Plans
- Situation Reports
- Unified Command Plans
- Executive Summaries

Cost Documentation:

Cost documentation for vessel removal will be collected by the Finance Section. Ultimate disposition of the original cost documentation will be at the National Pollution Funds Center (NPFC) in accordance with the agreed upon command direction for tracking vessel removal cost. Prior to sending the cost documentation package to NPFC, Documentation at the ESF-10 ICP will scan each package.

HH2017COM**APPROVED Talking Points**

09/07/17

DO: TALK ABOUT YOUR WORK AND WHAT YOU ARE DOING; AVOID NO COMMENT**DON'T:** TALK ABOUT OTHERS' WORK OR SPECULATE

- EPA has an organized emergency response program and is supporting FEMA, state, local and tribal partners.
- Safety is EPA's top priority
- EPA responders are fully integrated in a UNIFIED COMMAND with Texas Commission on Environmental Quality and Texas General Land Office, US Coast Guard
- Flood water is contaminated. Contact should be avoided.
- EPA is supporting the response effort in several ways:
 - Drinking water and waste water staff will offer technical assistance as necessary to restore services. Teams will visit or contact facilities if needed.
 - Superfund site managers worked to secure sites before the storm. Teams are continuing to assess site conditions and determine additional actions as necessary.
 - EPA is working with state partners to assist in contacting industrial facilities, determine status and plans to resume operations
 - EPA TAGA vehicle and ASPECT plane have been deployed to monitor developing environmental impacts
- Response teams will continue to evaluate affected areas and determine necessary actions as appropriate

Instructions for Field Personnel:

For Media Inquiries Contact R6HarveyPIO@epa.gov

1. Incident Name:	2. Operational Period: (Date / Time)	"Safety Message"
Hurricane Harvey – ESF 10 Texas	From: 09-08-17 @ 0700 To: 09-09-17 @ 0700	

Major Hazards and Risks:

Travel	Electrical Hazards	Biological Hazards	Slips, Trips, and Falls
Thermal Stresses	Hazardous Materials	Insects	Fire/Explosions
Security Fatigue	Stress	Wild & Stray Animals	Structural Integrity

Personal Hygiene – Minimize contact with contamination. Ensure that you wash with soap and clean water if you have any accidental contact. Wash your hands before and after eating and using the toilet.

Where is the Hospital? Make sure to check the Medical Plan (ICS Form 206) for the hospital closest to where you will be working and where you are staying. Remember if you call 911 from a cell phone you will need to provide the address of where you are located or at least an address generally in the area of where you are working before they can respond.

Driving Safety – Be on the lookout for issues with street signage and lights! Check for inclement weather when driving out in the field and insure that you inspect your vehicles. Watch for standing water during downpours and slow down to prevent hydroplaning. Make sure you have gas!

Don't Forget To Drink Water! - Please bring plenty of water with you when you go out to the work-sites. When the heat index is around 100 F drink 1 cup of water every 15-20 minutes. Generally, fluid intake should not exceed 6 cups per hour. Pee white ready to fight! During prolonged sweating lasting several hours, drink sports drinks containing balanced electrolytes.

Signs and symptoms of heat exhaustion – cool, moist skin; heavy sweating; headache; nausea or vomiting, dizziness; light-headedness; weakness, thirst; irritability; elevated body temperature; decreased urine output.

Signs and symptoms of heat Stroke – confusion, slurred speech; loss of consciousness; red hot, dry skin or profuse sweating, very high body temperature, seizures.

Staging Pad Sites – Be careful of slippery surfaces. Take your time and wear appropriate footwear. Ensure proper segregation of chemicals; utilize Cameo Chemical to determine compatibility.

Who To Call! Address any Safety concerns to David Eppler 214-733-4676

- Alpha Branch - Edward Primeau, 609-351-7148.
- Bravo Branch – Justin Sawyer, 904-755-4860; Steven Merritt 303-775-7226.
- Charlie Branch – Scott Binko, 216-903-6277.

Situational Awareness. Careful when driving and walking - surfaces may have been compromised due to the flood waters affecting stability. Do not leave valuables where they can be seen in the vehicle.

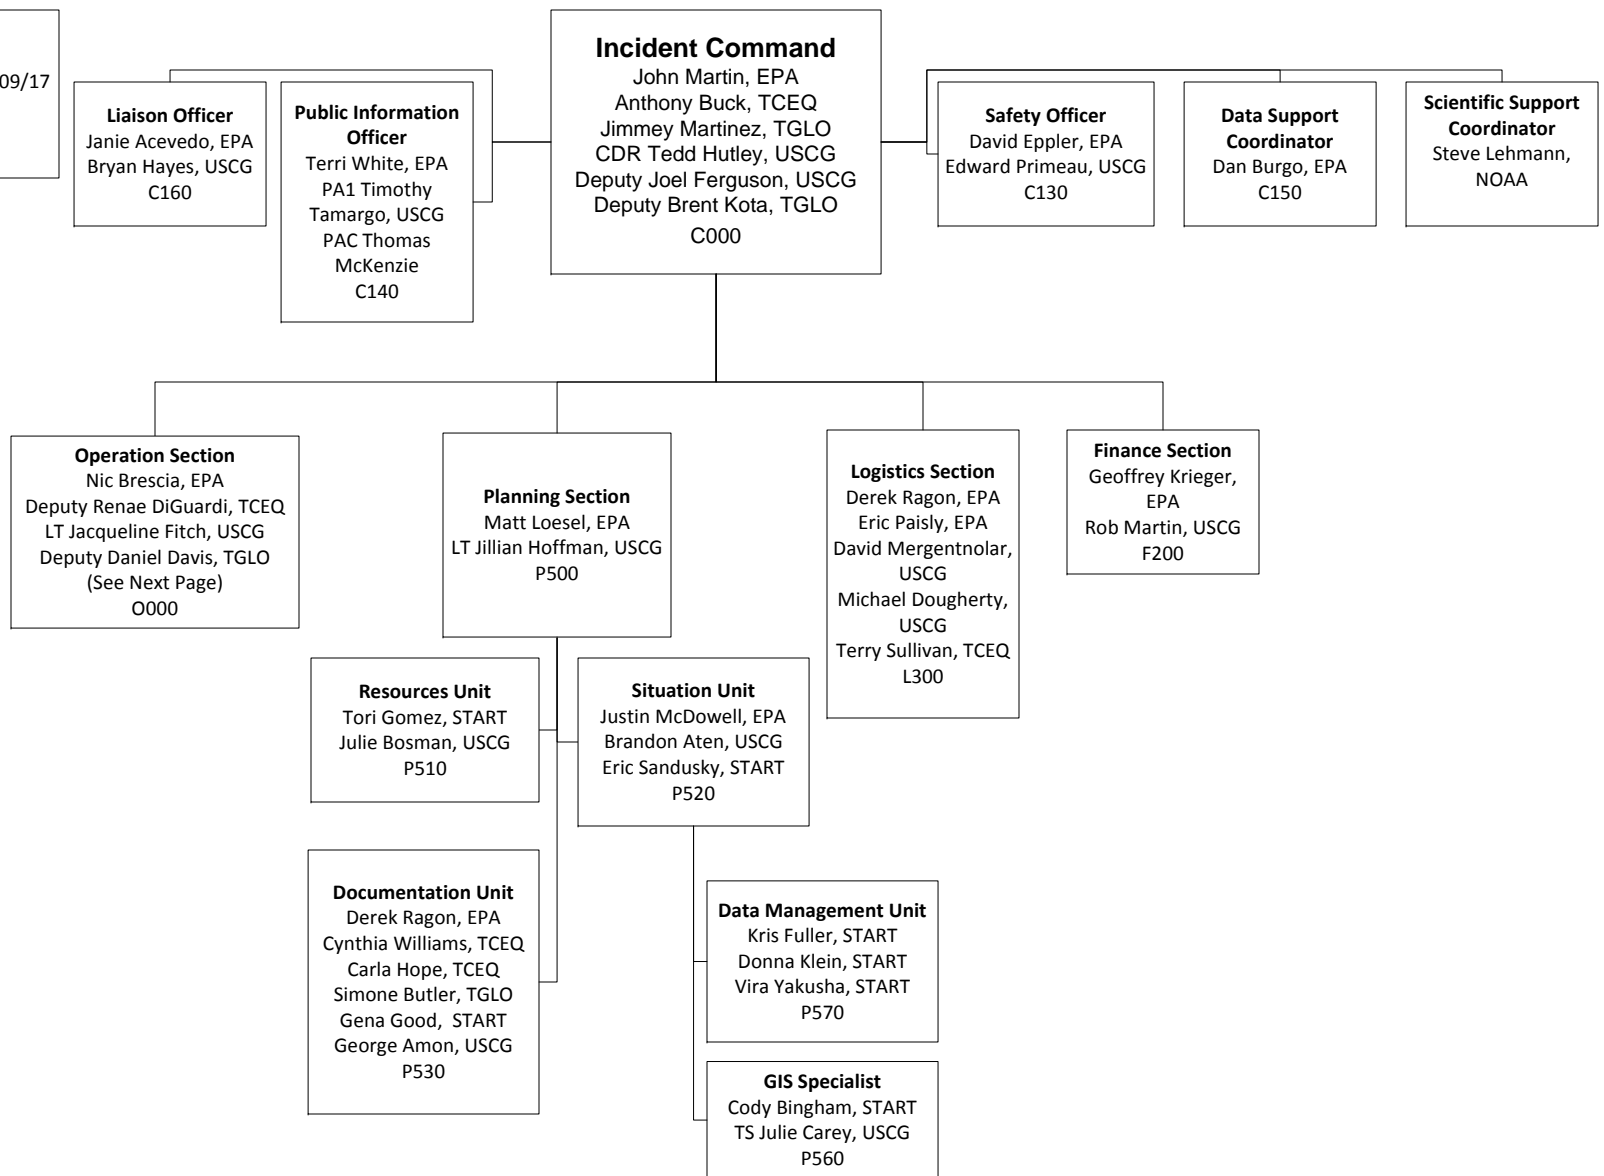

When Thunder Roars, Go Indoors. Take shelter when you hear lightning or when lightning is reported within five miles of the work site. Stay sheltered for at least 30 minutes after the last sound of thunder.

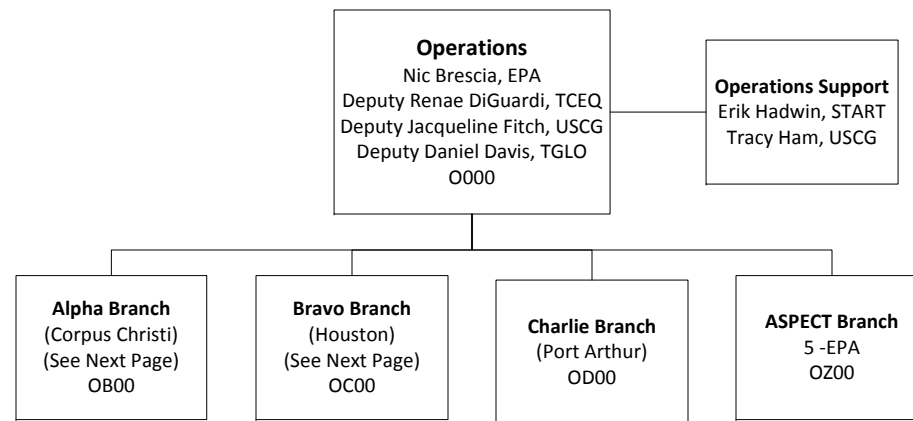

Equipment Checks – We had an electrical fire on a boat yesterday. Ensure you check the equipment thoroughly and that you have all needed safety gear!

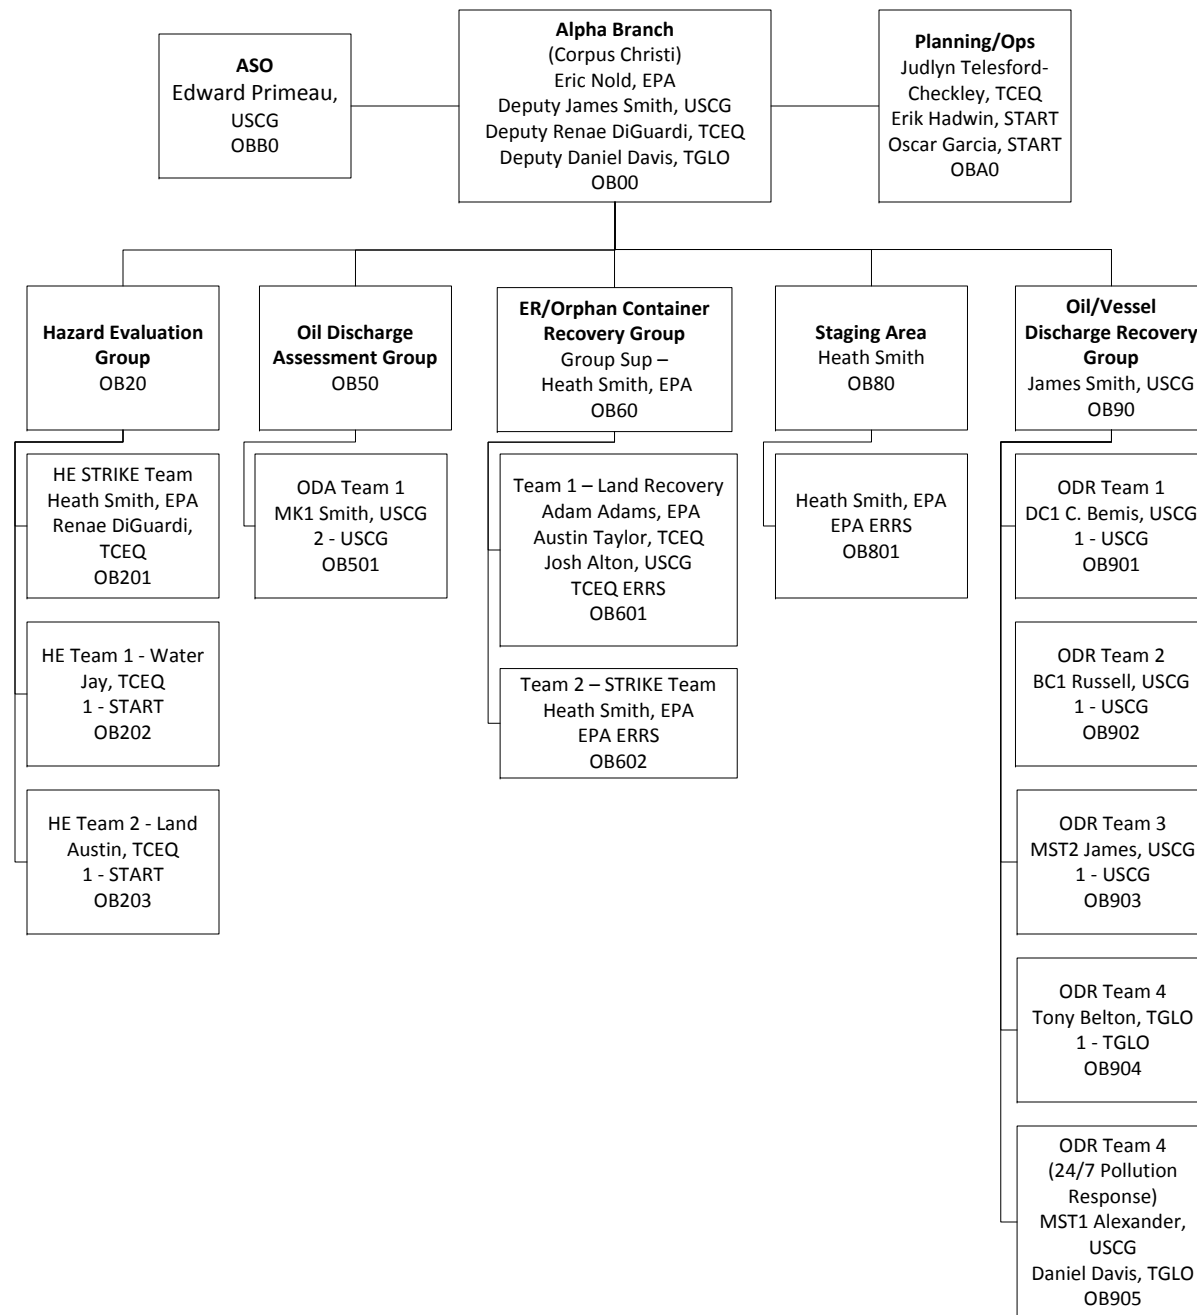

Supervisors and team leaders shall conduct Operational Risk Management (Hazard Risk Analysis) prior to the start of all operations.

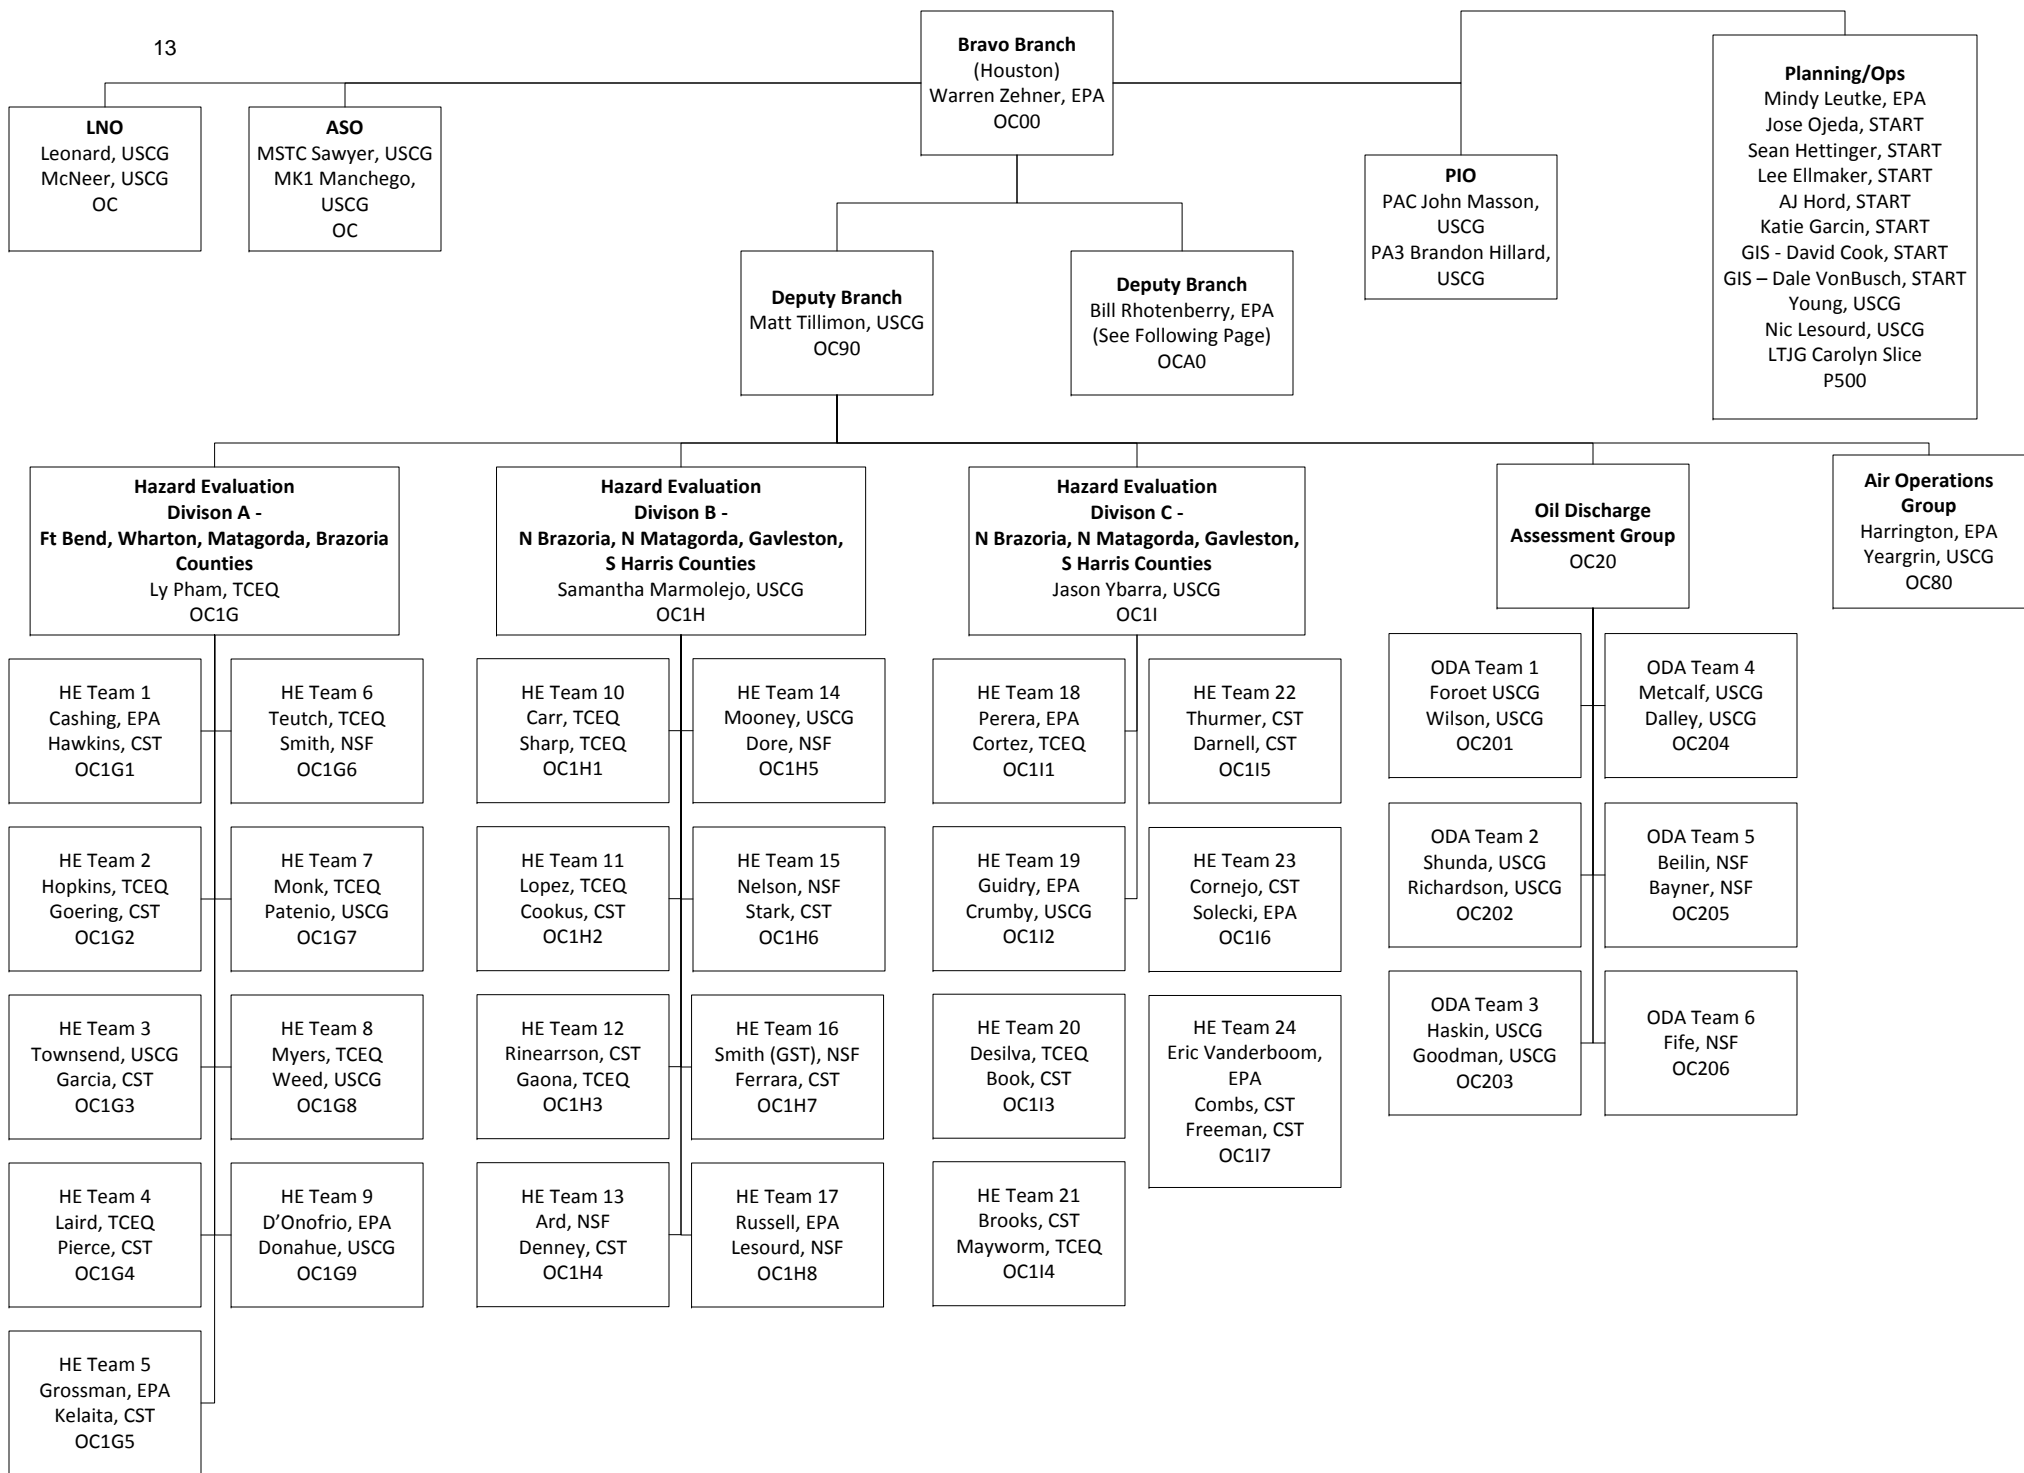

BE SAFE – BE EFFECTIVE – BE POSITIVE

7. Work Assignments:					
Conduct Orphan Container Recovery in Port Aransas. Containers pre-existing the disaster that are in their obvious place of origin and have not been displaced during the disaster should not be recovered unless they are leaking as a result of the disaster. Physically recover all orphan containers identified. Utilize the NDOW Orphan Container Hazard Evaluation SOP and document targets utilizing Response Manager via a Laptop/IPAD/Hazard Evaluation Field Data Sheet. All teams must download/sync assessment information daily and complete a 214B to document team field activities.					
8. Special Instructions:					
When the heat index is around 100 F drink 1 cup of water every 15-20 minutes. Generally, fluid intake should not exceed 6 cups per hour. During prolonged sweating lasting several hours, drink sports drinks containing balanced electrolytes. Signs and symptoms of heat exhaustion – cool, moist skin; heavy sweating; headache; nausea or vomiting, dizziness; light-headedness; weakness, thirst; irritability; elevated body temperature; decreased urine output. The action level for VOCs is 5 ppm for unknowns and half the TLV for known chemical hazards. Conduct Operational Risk Management prior to each evolution. Address any Safety concerns to Edward Primeau, 609-351-7148.

7. Work Assignments:					
HE1 – 9: Complete clearing grids in Fort Bend and Wharton Counties, and continue clearing grids in north Matagorda and north Brazoria counties for inland Hazard Assessment. Report to TCEQ Cline (325-656-4400). Conduct Orphan Container Hazard Evaluation in Bravo Branch geographical area. Prioritize Rapid Needs Assessment Targets & conduct evaluation of targets. Utilize NDOW Orphan Container Hazard Evaluation SOP & document targets utilizing Response Manager via Laptop/IPAD/Hazard Evaluation Field Data Sheet & Orphan Container Photo Placard. All teams must complete a 214B to document team field activities.					
8. Special Instructions:					
All Health and Safety incidents need to be reported to the Safety Officer for investigation. Keep hydrated with drinking 1 cup of water every 15-20 minutes. Take breaks as needed in a shaded area. Ensure you wear the appropriate PPE for your task (i.e. hard hats, gloves, safety glasses, safety boots, and PFDs). Use sunscreen and insect repellent. Ensure air monitoring instruments are operational and used during assessments. Impacted wildlife needs to be documented on the NDOW Fish Kill and Injured Wildlife Form and submitted to the Group Supervisor. Animal control issues call 911 or the local police - DO NOT attempt to approach or catch even domestic animals. If teams find weapons, call 911 or local law enforcement. Maintain teamwork - use the buddy system! SOFR –MSTC Sawyer, CG – (904)-755-4860 Critical Information Reporting (CIR) All teams shall immediately injuries, mishaps, and report any active discharge and/or release to the Operations Branch Chief.

6. Resources Assigned: "X" indicates 204a attachment with additional instructions					
Strike Team/Task Force/ Resource Identifier	Leader	Contact Info. #	# of Persons	Reporting Info/Notes/Remarks	
IHE Team 1	BMC Sidik – USCG	631-664-4687	3	As directed by TFL <input type="checkbox"/>	
IHE Team 2	MST2 Zuroski - USCG	650-303-3339	3	As directed by TFL <input type="checkbox"/>	
IHE Team 3	TBD – TCEQ		2	TCEQ Lead Agency <input type="checkbox"/>	
				<input type="checkbox"/>	
7. Work Assignments:					
<p>Conduct hazard and waterway assessments as determined by TGLO/TCEQ throughout the Port Arthur AOR. Populate the NDOW software, prioritize and conduct assessment of the assigned targets. Utilize the NDOW SOP and document targets utilizing Response Manager via a laptop/PDA/Hazard Evaluation Field Data Sheet. All teams must download and sync information daily and complete a 214 to document field team activities.</p> <p>Notify TFL, ENS Boyd, immediately in the event of an active discharge.</p> <p>.</p>					
8. Special Instructions:					
<p>All Health and Safety incidents need to be reported to the Safety Officer for investigation. Keep hydrated with drinking 1 cup of water every 15-20 minutes. Take breaks as needed in a shaded area. Ensure you wear the appropriate PPE for your task (i.e. hard hats, gloves, safety glasses, safety boots, and PFDs). Use sunscreen and insect repellent. Ensure air monitoring instruments are operational and used during assessments. Impacted wildlife needs to be documented on the NDOW Fish Kill and Injured Wildlife Form and submitted to the Group Supervisor. For animal control issues or when a weapon is found, call 911 or local law enforcement. Maintain teamwork - use the buddy system! If you see a lightning strike within 5 miles, shelter for at least 30 minutes after hearing last thunder roll. SOFR – SCOTT BINKO, CG – 216-903-6277.</p> <p>Critical Information Reporting (CIR) All teams shall immediately report injuries, mishaps to SOFR, and report any active discharge and/or release to the Operations Branch Chief.</p>
